Hello friends, welcome again on my blog therichpost.com. Today in this post, I will tell you, **Create Your First ReactJS Application Responsive Page with Bootstrap 5**.

Guys with this post we will do below things:

1. Add Bootstrap 5 in ReactJS Application.
2. Create responsive page in reactjs application.
3. Here is the first part of this post : Part 1

Here I think, for few working example please check the below video:

Now we are done friends, if you have any kind of query or suggestion or any requirements then feel free to comment below.
